BU FUAR 5174 SAYILI KANUN GEREĞİNCE TOBB (TÜRKİYE ODALAR VE BORSALAR BİRLİĞİ) DENETİMİNDE DÜZENLENMEKTEDİR.

THIS FAIR IS ORGANIZED WITH THE PERMISSION OF TOBB (THE UNION OF CHAMBERS AND COMMODITY EXCHANGES OF TURKEY) IN ACCORDANCE WITH THE LAW NO.5174

Main products:

R type can be processed, irreversible reactive printing dyes 28 chromophore complete.

No salt, high solubility F-type reactive printing dye 17

Cold rolled pile reactive printing dyes.

Long car pad printing with reactive dyes

"Chabai" "Wala" effect reactive dye

Digital printing with reactive dye ink and liquid reactive dyes

Conventional K type M dye reactive dye

Featured products:

Direct printing of tender yellow PMA, golden PKK, red PS, 4B, brilliant blue F-2B, deep blue PBR, navy blue PBR, black PBR, and Yantai PBR

Low area dependent printing series PEF series

Continuous staining sensitive colors include brown WCC,

brown WML, grey WEL, green WEL, and green WEL

Environmentally friendly printing grey PSL, grey PSL

Pad drying, dip drying, water bath black WGD printing, extra dark black PSH

FİRMA BİLGİSİ:

1983 yılında tekstil yardımcı kimyasalları satışı ile faaliyetlerine başlayan Alfa Kimya, ticaret hayatının ilk yıllarında Uzakdoğu ülkelerinden mümessillikler olarak tekstil boyalarının ithalatını vepazarlamasını yapmıştır. İlerleyen yıllarda Almanya'da faaliyet gösteren Stockhausen firmasının Türkiye kuruluşu Türk-Stockhausen A.Ş. ile birlikte tekstil yardımcı kimyasallarının üretimi ve pazarlamasını gerçekleştirmiştir.

Bugün kendi fabrikasında 350'yi aşkın ürün çeşidi ile başta tekstil olmak üzere deterjan ve inşaat sektörlerine yönelik tekstil kimyasalları imalatı ve boya, kimyasal, enzim, optik ve silikon ithalatı gerçekleştirmektedir.

COMPANY INFORMATION:

Established in 1983, Alfa Kimya started business in Textile Auxiliaries Trading. Later on, Alfa Kimya signed several representative agent agreements with Far East dyestuff manufacturers to start import and marketing of Reactive, Disperse, Acid, Basic and Printing dyes. During the following years, started its own co-production of textile Auxiliaries together with Stockhausen GmbH of Germany (Türk-Stockhausen A.Ş.).

Today, Alfa Kimya, manufactures and trades more than 350 different products in its own facilities for mainly Textile Industry as well as Construction and Detergent Industries.

COMPANY INFORMATION:

BBT (Baico BioTech (Zhuhai) Co., Ltd) started researching and making coated pills in 2004 and registered as BBT in 2007. Focus on the stabilization and immobilization of Enzymes. B B T is a professional manufacturer of Textile Enzymes, and located in Zhuhai, Guangdong, China. As a Textile Enzyme manufacturer, BBT provides Neutral Cellulase, Catalase, Pectinase, Amylase, and Combined Enzymes for Cotton Fabric, Yarn Dyeing Factories, and Denim Washing Mills.

BBT is dedicated to sustainable development techniques to create a more beautiful life based on innovative technology. Working with our partners and customers to protect our standard environment is an honor.

BBT adopts a multi-layered coating technology for its granular enzymes. The coating technology here is remarkably beneficial for the stabilization of the protein structure for the Enzyme. In this case, we can ensure the stability and activity of enzymes, which means the Enzyme can be stored at room temperature. Moreover, when BBT enzyme works together with other chemical materials, there is little loss of enzyme activity.

The diameter of the BBT's Granular Enzymes ranges from 16 to 50 meshes, and the number of particles per gram is from 1500 to 2000. The Enzyme is in good uniformity in size. And every single particle is of good enzyme activity. BBT's Enzyme can be divided into granular and liquid forms.

COMPANY INFORMATION:

Founded in 1996, is a professional high-tech company with R&D, manufacturing, sales and service in the textile and dyeing auxiliaries industry. It provides pre-treatment, dyeing & printing and finishing auxiliaries to customers from the domestic market, South and Southeast Asia. The company is located in Shantou, Guangdong Province of China covers an area of about 40 acres and is the leading textile auxiliaries supplier in China. The second manufacturing base covering an area of about 40 acres in the Fine Industry Park of, Sihui City was established in order to provide customers with better service. The company maintains long-term close cooperative relations with many universities and research institutes to enhance the its R&D capabilities and master the core technologies of the industry's high-end products. In particular, significant breakthroughs have been made in the silicone products area. Many of the silicone products have reached or surpassed imported high-end products. The company obtains the certification of ISO9001 quality management system in 2015. The company has consistently adhered to the "technical innovation" routine, with "fast service, stable quality" as the service purpose and "Credit comes from quality, technology assures service" as its philosophy, cooperates with printing and dyeing enterprises in the industry to promote and improve product quality so as to fulfill the pursuit of high-quality and high-value-added products. At present, it has become a designated auxiliary supplier for many well-known clothing brands at home and abroad.

Xiejia takes the business philosophy as "achieving partner, improving family and harmonizing society". We have converged and accomplished a number of scientific research talents. We have a strong research team and established a market leading R&D center which has modern production equipment, testing equipment and automatic monitoring system. Xiejia is fully equipped with a high production capacity and quality product. Our main products include waterborne acrylic emulsion series, waterborne polyurethane dispersion series, waterborne alkyd resin series and special adhesive series. All our products have been certificated by the professional environmental testing agency, accord with national environmental protection requirement and meet the standard of Europe and America.

Revered all over Surat for his amazing proficiency and sterling reputation in the dyes industry, 'Babuji' as he is fondly called, stands as a tower of inspiration for the Nova Group. His exceptional knowledge and experience acts as the foundation of valuable insight and direction to the management.

The executive functions and day-to-day management of the group are ably handled by the younger generation, comprising of Mr Kamal Jain and his son, Jinesh Jain. This dynamic and spirited management leads a team of about 600 technical, skilled and unskilled personell.

While members of the staff are extremely qualified, skilled and well-equipped to serve the customers at all levels, th Group's recruitment policy is extremely well structured. This helps the group to attract and retain the best technical and professional talent in the industry.
