

ALFA KIMYA PRODUCT RANGE FOR DENIM TREATMENT

Product name	Description	Ionic Character	Appearance
UNIPOL UK	Wetting Agent Concentrated, low foam, universal wetting and washing agent with high emulsifying power for all kind of fiber. Promotes excellent wetting and washing properties .	Nonionic	Liquid
TEXAPOL JET CONC	Wetting /Deareting Agent has a good wetting power and deareting property. Low foaming it can be applied on washing machines and discontinuous dyeing machines with high turbulences.	Nonionic	Liquid
TEXAPOL UD CONC	Washing Agent/ Oil Remover Due to its micro system structure,it provides a range of usage as a good oil removing, washing and wetting agent in the wet processes of fabric and garment.	Nonionic	Liquid
ENDOLUP ACA 100	Anti-crease agent Concentrated, crease and rope mark preventative, low foaming - biodegradable that prevents streaks in denim dyed garments.	Non-ionic / Anionic	Liquid

STONEX D-LUB	Anti-crease agent Polymeric lubricant and anticreasing agent for denim treatments	Nonionic	Powder
CALVIRON SD	Sequestering Agent Sequestrant and dispersant material used for textile pretreatment, dyeing and aftertreatment. Due to its high chelating It also provides anti corrosive effect.	Anionic	Liquid
ALFA CORE 8504	Corrosion inhibitor for use during dyeing operations on made-up articles.prevents corrosion problems on metallic parts of made-up articles during dyeing and prevents any staining or marking of the treated fabric.	---	Liquid
PERLAFIX CWP	Fixing Agent Cationic formaldehyde-free fixing agent for cellulosic fibres dyed with reactive or direct dyes	Cationic	Liquid
ALFA SET MA 219	A formaldehyde free self crosslinking cationic acrylic copolymer to improve the wet and dry rubbing fastness and the resistance to pilling	Cationic	Liquid
SUPERWHITE NB	Optical Brightener Medium affinity liquid optical brightener for cotton and viscose fibers, neutral shade	Anionic	Liquid

BESTAMIN EQ 90	Esterquat Softener Gives soft handle with antistatic property	Cationic	Paste
TG-HYPERSOFT MIC CONC	Micro Silicone Emulsion Imparts very soft, smooth and elastic touch to woven and knitted fabrics. Improves the wash-wear properties and the crease recovery angle, sewability and tear strength and reduces abrasion loss	Nonionic	Liquid
BESTAMIN DOX	Anti-ozone Softener An originally formulated anti-ozone softener that provides excellent ozone fastness	Cationic	Liquid
NOVAPON DP	Antiback Staining agent Dispersing & antiredeposition aid for garment wet processing (100%)	Nonionic	Solid
NOVAPON OP	Antiback Staining agent Concentrated Anti back-staining agent in the garment wet processing of denim. Excellent whiter pockets, cleaner garment	Nonionic	Paste
